1	Limestone , Dolomite Mining	Million Tons per Annum (MTPA)	2.0	2.0	No.MPCBCONSENT-0000259016/CR/2601002823	31-12-2030	FY 2025-2026

Conditions

Specific Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks / Reason and Supporting Documents	
1	WATER QUALITY MONITORING AND PRESERVATION	PP shall construct garland drains with protective bunds around area to be excavated, to avoid entrance of surface run off into pit and mixing with ground water. Furthermore, PP shall make garland drains/storm water drains along with siltation/settling tanks at regular interval around the mine pits that will be active through proper plan which follow the natural slope of surface run off and/or to avoid its mixing with groundwater.	PPs Submission	Complied, Garland drains with siltation bunds has been constructed as per approved mine plan to avoid entrance of surface runoff into pit. Complied 28-05-2026 Attachment: Click to View

2	AIR QUALITY MONITORING AND PRESERVATION	Dust control measures need to be installed and strengthened during initial road transportation to eliminate impact on air quality.	PPs Submission	Complied, dedicated water tanker deployed for sprinkling on village road for dust suppression Complied Complied 28-05-2026 Attachment: Click to View
3	GREENBELT	PP shall make progressive greenbelt and plantation like bench plantation and also do plantation around mineral storage, top soil stack, road, magazine and other places as committed.	PPs Submission	Being complied, Greenbelt developed is being done as per approved mine plan. Being Complied 28-05-2026 Attachment: Click to View
4	Corporate Environmental Responsibility	PP shall establish the Environment Management Cell (EMC) and engage sufficient number of qualified staff for the implementation of Environmental Clearance Conditions and other statutory requirements.	PPs Submission	Complied, Environment Management Cell (EMC) is setup with qualified staff for the implementation EC conditions and other statutory requirements. Complied 28-05-2026 Attachment:NA
5	WATER QUALITY MONITORING AND PRESERVATION	Adequate Safety Measures like Proper Safety Bunds and Fencing shall be provided by the PP around the water bodies to ensure Safety.	PPs Submission	Being complied, at present no water bodies are developed in the mining lease area site. Complied 28-05-2026 Attachment:NA
6	PUBLIC HEARING	PP shall comply all action plans made for public hearing concerns and make regular	PPs Submission	Being complied, The commitments made during the public hearing are being complied through the CSR department

		maintenance and record the progressive activity outcomes.		Being Complied 28-05-2026 Attachment: Click to View
--	--	---	--	---

General Conditions

Sr.No.	Condition Heading	Condition Details	Status of Compliance,Remarks / Reason and Supporting Documents	
1	Statutory compliance	This Environmental Clearance (EC) is subject to orders/ judgment of Hon'ble Supreme Court of India, Hon'ble High Court, Hon'ble NGT and any other Court of Law, Common Cause Conditions as may be applicable.	PPs Submission	Noted. Agreed to Comply 23-04-2026 Attachment:NA
2	Statutory compliance	The Project proponent complies with all the statutory requirements and judgment of Hon'ble Supreme Court dated 2nd August,2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India &Ors before commencing the mining operations.	PPs Submission	Compliance assured. Complied 23-04-2026 Attachment:NA
3	Statutory compliance	The State Government concerned shall ensure that mining operation shall not be commenced till the entire compensation levied, if any, for illegal mining paid by the Project Proponent through their respective Department of Mining & Geology in strict compliance of	PPs Submission	Noted. Complied 23-04-2026 Attachment:NA

		Judgment of Hon'ble Supreme Court dated 2nd August, 2017 in Writ Petition (Civil) No. 114 of 2014 in matter of Common Cause versus Union of India & Ors.		
4	Statutory compliance	This Environmental Clearance shall become operational only after receiving formal NBWL Clearance from MoEF&CC subsequent to the recommendations of the Standing Committee of National Board for Wildlife, if applicable to the Project.	PPs Submission	Not Applicable as no forest land falls in mining lease area. Complied 23-04-2026 Attachment:NA
5	Statutory compliance	This Environmental Clearance shall become operational only after receiving formal NBWL Clearance from MoEF&CC subsequent to the recommendations of the Standing Committee of National Board for Wildlife, if applicable to the Project.	PPs Submission	Not applicable as no forest land falls in mining lease area Complied 23-04-2026 Attachment:NA
6	Statutory compliance	Project Proponent (PP) shall obtain Consent to Operate after grant of EC and effectively implement all the conditions stipulated therein. The mining activity shall not commence prior to obtaining Consent to Establish / Consent to Operate from the concerned State Pollution Control Board/Committee.	PPs Submission	Complied, CTO obtained from MPCB vide letter dated 27.01.2026 which is valid up to 31.12.2030. Complied 29-05-2026 Attachment: Click to View

7	Statutory compliance	The PP shall adhere to the provision of the Mines Act, 1952, Mines and Mineral (Development & Regulation), Act, 2015 and rules & regulations made there under. PP shall adhere to various circulars issued by Directorate General Mines Safety (DGMS) and Indian Bureau of Mines from time to time.	PPs Submission	Being complied. Being Complied 23-04-2026 Attachment:NA
8	Statutory compliance	The Project Proponent shall obtain consents from all the concerned land owners, before start of mining operations, as per the provisions of MMDR Act, 1957 and rules made there under in respect of lands which are not owned by it.	PPs Submission	Being complied, mining is being done only on consented/purchased area under company s possession. Complied 28-05-2026 Attachment:NA
9	Statutory compliance	The Project Proponent shall follow the mitigation measures provided in MoEFCC's Office Memorandum No. Z-11013/57/2014-IA.II (M), dated 29th October, 2014, titled "Impact of mining activities on Habitations-Issues related to the mining Projects wherein Habitations and villages are the part of mine lease areas or Habitations and villages are surrounded by the mine lease area".	PPs Submission	Complied, All mitigation measures are being followed as per the MoEFCCs Office Memorandum No. Z- 11013/57/2014-IA.II (M), dated 29th October, 2014. Complied 28-05-2026 Attachment:NA
10	Statutory compliance	The Project Proponent shall obtain necessary prior permission of	PPs Submission	Complied, we have obtained the NOC from CGWA for withdrawal of

		the competent authorities for drawl of requisite quantity of surface water and from CGWA for withdrawal of ground water for the project.		ground water which is valid up to 01.07.2027. Copy enclosed. Complied 23-04-2026 Attachment: Click to View
11	Statutory compliance	A copy of EC letter will be marked to concerned Panchayat/ local NGO etc. if any, from whom suggestion / representation has been received while processing the proposal.	PPs Submission	A notice regarding grant of EC was published in local newspapers within 7 days of receipt of the EC. Complied 28-05-2026 Attachment: Click to View
12	Statutory compliance	State Pollution Control Board/Committee shall be responsible for display of this EC letter at its Regional office, District Industries Centre and Collector's office/ Tehsildar's Office for 30 days.	PPs Submission	Noted Agreed to Comply 23-04-2026 Attachment:NA
13	Statutory compliance	The Project Authorities should widely advertise about the grant of this EC letter by printing the same in at least two local newspapers, one of which shall be in vernacular language of the concerned area. The advertisement shall be done within 7 days of the issue of the clearance letter mentioning that the instant project has been accorded EC and copy of the EC letter is available with the State Pollution Control	PPs Submission	Complied Complied 29-05-2026 Attachment: Click to View

		Board/Committee and web site of the Ministry of Environment, Forest and Climate Change (www.parivesh.nic.in). A copy of the advertisement may be forwarded to the concerned MoEF&CC Regional Office for compliance and record.		
14	Statutory compliance	The Project Proponent shall inform the MoEF&CC for any change in ownership of the mining lease. In case there is any change in ownership or mining lease is transferred than mining operation shall only be carried out after transfer of EC as per provisions of the para 11 of EIA Notification, 2006 as amended from time to time.	PPs Submission	Noted. Agreed to Comply 23-04-2026 Attachment:NA
15	AIR QUALITY MONITORING AND PRESERVATION	The Project Proponent shall install a minimum of 3 (three) online Ambient Air Quality Monitoring Stations with 1 (one) in upwind and 2 (two) in downwind direction based on long term climatological data about wind direction such that an angle of 120° is made between the monitoring locations to monitor critical parameters, relevant for mining operations, of air pollution viz. PM10, PM2.5, NO2, CO and SO2 etc. as per the methodology	PPs Submission	Being complied, 01 online Ambient air quality station is installed and another two locations monitoring is being done through NABL approved Laboratory. Being Complied 28-05-2026 Attachment: Click to View

		mentioned in NAAQS Notification No. B-29016/20/90/PCI/I, dated 18.11.2009 covering the aspects of transportation and use of heavy machinery in the impact zone. The ambient air quality shall also be monitored at prominent places like office building, canteen etc. as per the site condition to ascertain the exposure characteristics at specific places. The above data shall be digitally displayed within 03 months in front of the main Gate of the mine site.		
16	AIR QUALITY MONITORING AND PRESERVATION	Effective safeguard measures for prevention of dust generation and subsequent suppression (like regular water sprinkling, metalled road construction etc.) shall be carried out in areas prone to air pollution wherein high levels of PM10 and PM2.5 are evident such as haul road, loading and unloading point and transfer points. The Fugitive dust emissions from all sources shall be regularly controlled by installation of required equipment/ machineries and preventive maintenance. Use of suitable water soluble chemical dust suppressing	PPs Submission	Complied, Regular water tanker is deployed in mines for dust suppression and bitumen road is constructed of 3.10 kms. Complied 28-05-2026 Attachment: Click to View

		agents may be explored for better effectiveness of dust control system. It shall be ensured that air pollution level conform to the standards prescribed by the MoEFCC/Central Pollution Control Board.		
17	WATER QUALITY MONITORING AND PRESERVATION	In case, immediate mining scheme envisages intersection of ground water table, then Environmental Clearance shall become operational only after receiving formal clearance from CGWA. In case, mining operation involves intersection of ground water table at a later stage, then PP shall ensure that prior approval from CGWA and MoEFCC is in place before such mining operations. The permission for intersection of ground water table shall essentially be based on detailed hydro-geological study of the area.	PPs Submission	Complied, NOC from CGWA has been obtained for dewatering of mine pit water and withdrawal of ground water for the quantity of 426 KL/day and valid up to 01.07.2027 Complied 28-05-2026 Attachment: Click to View
18	WATER QUALITY MONITORING AND PRESERVATION	Regular monitoring of the flow rate of the springs and perennial nallahs flowing in and around the mine lease shall be carried out and records maintain. The natural water bodies and or streams which are flowing in an around the village, should not be disturbed. The Water Table should be nurtured	PPs Submission	Being complied regularly. Rain gauge installed at mines office premises to measure daily rain fall data. Nearby nallahs are monitored regularly Being Complied 23-04-2026 Attachment:NA

		so as not to go down below the remaining period. In case of any water scarcity in the area, the Project Proponent has to provide water to the villagers for their use. A provision for regular monitoring of water table in open dug well located in village should be incorporated to ascertain the impact of mining over ground water table. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Gro	
--	--	--	--

19	WATER QUALITY MONITORING AND PRESERVATION	Project Proponent shall regularly monitor and maintain records w.r.t. ground water level and quality in and around the mine lease by establishing a network of existing wells as well as new piezo-meter installations during the mining operation in consultation with Central Ground Water Authority/ State Ground Water Department. The Report on changes in Ground water level and quality shall be submitted on six-monthly basis to the Regional Office of the Ministry, CGWA and State Groundwater Department / State Pollution Control Board.	<table><tr><td>PPs Submission</td><td> Complied, Regular monitoring is being done for ground water level and quality in and around the mines lease area and records are also maintained Complied 28-05-2026 Attachment: Click to View </td></tr></table>	PPs Submission	Complied, Regular monitoring is being done for ground water level and quality in and around the mines lease area and records are also maintained Complied 28-05-2026 Attachment: Click to View
PPs Submission	Complied, Regular monitoring is being done for ground water level and quality in and around the mines lease area and records are also maintained Complied 28-05-2026 Attachment: Click to View				

20	WATER QUALITY MONITORING AND PRESERVATION	The Project Proponent shall undertake regular monitoring of natural water course/ water resources/ springs and perennial nallahs existing/ flowing in and around the mine lease and maintain its records. The project proponent shall undertake regular monitoring of water quality upstream and downstream of water bodies passing within and nearby/ adjacent to the mine lease and maintain its records. Sufficient number of gullies shall be provided at appropriate places within the lease for management of water. PP shall carryout regular monitoring w.r.t. pH and included the same in monitoring plan. The parameters to be monitored shall include their water quality vis-à-vis suitability for usage as per CPCB criteria and flow rate. It shall be ensured that no obstruction and/ or alteration be made to water bodies during mining operations without justification and prior approval of MoEFCC. The monitoring of water courses/ bodies existing in lease area shall be carried out four times in a year viz. pre- monsoon (April- May), monsoon (August),	PPs Submission	Complied, Regular monitoring of ground water level and quality is being carried out in and around the mining lease area as per the Environment Management Plan of approved Mining plan by establishing a network of existing wells. The ground water level monitored through the installed piezometers. The quality of the water will be periodically monitored through NABL approved Laboratory Complied 28-05-2026 Attachment: Click to View
----	---	--	----------------	--

		post-monsoon (November) and winter (January) and the record of monitored data may be sent regularly to Ministry of Environment, Forest and Climate Change and its Regional Office, Central Ground Water Authority and Regional Director, Central Ground Water Board, State Pollution Control Board and Central Pollution Control Board. Clearly showing the trend analysis on six-monthly basis.		
21	WATER QUALITY MONITORING AND PRESERVATION	Quality of polluted water generated from mining operations which include Chemical Oxygen Demand (COD) in mines run-off; acid mine drainage and metal contamination in runoff shall be monitored along with Total Suspended Solids (TDS), Dissolved Oxygen (DO), pH and Total Suspended Solids (TSS). The monitored data shall be uploaded on the website of the company as well as displayed at the project site in public domain, on a display board, at a suitable location near the main gate of the Company. The circular No. J-20012/1/2006-IA.II (M) dated 27.05.2009 issued by Ministry of Environment, Forest	PPs Submission	Being complied. Water quality monitoring of surface run off will be taken up during monsoon and will be uploaded in website. Being Complied 23-04-2026 Attachment:NA

		and Climate Change may also be referred in this regard.		
22	WATER QUALITY MONITORING AND PRESERVATION	Project Proponent shall plan, develop and implement rainwater harvesting measures on long term basis to augment ground water resources in the area in consultation with Central Ground Water Board/ State Groundwater Department. A report on amount of water recharged needs to be submitted to Regional Office MoEFCC annually.	PPs Submission	Noted, As mines not operational to its full capacity, no permanent infrastructure has been erected. Rain water harvesting measures will be complied during construction of such infrastructure. Agreed to Comply 23-04-2026 Attachment:NA
23	WATER QUALITY MONITORING AND PRESERVATION	Industrial waste water (workshop and waste water from the mine) should be properly collected and treated so as to conform to the notified standards prescribed from time to time. The standards shall be prescribed through Consent to Operate (CTO) issued by concerned State Pollution Control Board (SPCB). The workshop effluent shall be treated after its initial passage through Oil and grease trap.	PPs Submission	Complied, At present workshop is not setup . Complied 23-04-2026 Attachment:NA
24	WATER QUALITY MONITORING AND PRESERVATION	The water balance/water auditing shall be carried out and measure for reducing the consumption of water shall be taken up and reported to the Regional Office	PPs Submission	Complied, All water abstraction sources are equipped with flowmeter and telemetry system for monitoring of water consumption. Complied 28-05-2026

		of the MoEF&CC and State Pollution Control Board/Committee.		Attachment: Click to View
25	Noise Monitoring & Prevention	The peak particle velocity at 500m distance or within the nearest habitation, whichever is closer shall be monitored periodically as per applicable DGMS guidelines.	PPs Submission	Compiled, micromate instrument is used for measuring ppv for every blast in mines and reports are generated Complied 28-05-2026 Attachment: Click to View
26	Noise Monitoring & Prevention	The illumination and sound at night at project sites disturb the villages in respect of both human and animal population. Consequent sleeping disorders and stress may affect the health in the villages located close to mining operations. Habitations have a right for darkness and minimal noise levels at night. PPs must ensure that the biological clock of the villages is not disturbed; by orienting the floodlights/ masks away from the villagers and keeping the noise levels well within the prescribed limits for day /night hours.	PPs Submission	Complied, Illumination and sound survey is being conducted Regularly. Complied 28-05-2026 Attachment: Click to View
27	Noise Monitoring & Prevention	The Project Proponent shall take measures for control of noise levels below 85 dB(A) in the work environment. The workers engaged in operations of HEMM, etc. should be	PPs Submission	Complied, Noise monitoring is being done and necessary PPEs provided to the workers engaged in mining activities. Awareness training imparted to all the workers during their

		provided with ear plugs /muffs. All personnel including laborers working in dusty areas shall be provided with protective respiratory devices along with adequate training, awareness and information on safety and health aspects. The PP shall be held responsible in case it has been found that workers/ personals/ laborers are working without personal protective equipment.	joining and daily tool box talk. Complied 23-04-2026 Attachment:NA	
28	MINING PLAN	The Project Proponent shall adhere to the working parameters of mining plan which was submitted at the time of EC appraisal wherein year-wise plan was mentioned for total excavation i.e. quantum of mineral, waste, over burden, inter burden and top soil etc. No change in basic mining proposal like mining technology, total excavation, mineral & waste production, lease area and scope of working (viz. method of mining, overburden & dump management, O.B & dump mining, mineral transportation mode, ultimate depth of mining etc.) shall not be carried out without prior approval of the Ministry of Environment, Forest and Climate Change, which entail adverse	PPs Submission Complied, mining is being carried out as per mining plan approved by Indian Bureau of Mines. Complied 28-05-2026 Attachment: Click to View	

		environmental impacts, even if it is a part of approved mining plan modified after grant of EC or granted by State Govt. in the form to Short Term Permit (STP), Query license or any other name.		
29	MINING PLAN	The Project Proponent shall get the Final Mine Closure Plan along with Financial Assurance approved from Indian Bureau of Mines/Department of Mining & Geology as required under the Provision of the MMDR Act, 1957 and Rules/ Guidelines made there under. A copy of approved final mine closure plan shall be submitted within 2 months of the approval of the same from the competent authority to the concerned Regional Office of the Ministry of Environment, Forest and Climate Change for record and verification.	PPs Submission	Complied. Complied 23-04-2026 Attachment:NA
30	MINING PLAN	The land-use of the mine lease area at various stages of mining scheme as well as at the end-of-life shall be governed as per the approved Mining Plan. The excavation visa- vis backfilling in the mine lease area and corresponding afforestation to be raised in the reclaimed area shall	PPs Submission	Noted Agreed to Comply 23-04-2026 Attachment:NA

		be governed as per approved mining plan. PP shall ensure the monitoring and management of rehabilitated areas until the vegetation becomes self-sustaining. The compliance status shall be submitted half-yearly to the MoEFCC and its concerned Regional Office.		
31	LAND RECLAMATION	The Overburden (O.B.) generated during the mining operations shall be stacked at earmarked OB dump site(s) only and it should not be kept active for a long period of time. The physical parameters of the OB dumps like height, width and angle of slope shall be governed as per the approved Mining Plan as per the guidelines/circulars issued by D.G.M.S w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of top soil/OB dumps. The topsoil shall be used for land reclamation and plantation.	PPs Submission	Complied, Overburden is being stacked separately in earmarked area as per approved Mining Plan Complied 28-05-2026 Attachment: Click to View
32	LAND RECLAMATION	The reject/waste generated during the mining operations shall be stacked at earmarked waste dump site(s) only. The physical parameters of the waste dumps like height, width and angle of slope shall be governed as per the approved Mining	PPs Submission	Complied, reject/ waste generated during mining operations is being stacked at earmarked area only Complied 28-05-2026 Attachment: Click to View

		Plan as per the guidelines/circulars issued by DGMS w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of waste dumps.		
33	LAND RECLAMATION	The reclamation of waste dump sites shall be done in scientific manner as per the Approved Mining Plan cum Progressive Mine Closure Plan.	PPs Submission	Noted for compliance, at present reclamation of waste dump is not being done. Agreed to Comply 23-04-2026 Attachment:NA
34	LAND RECLAMATION	The slope of dumps shall be vegetated in scientific manner with suitable native species to maintain the slope stability, prevent erosion and surface run off. The selection of local species regulates local climatic parameters and help in adaptation of plant species to the microclimate. The gullies formed on slopes should be adequately taken care of as it impacts the overall stability of dumps. The dump mass should be consolidated with the help of dozer/ compactors thereby ensuring proper filling/ levelling of dump mass. In critical areas, use of geo textiles/ geo-membranes / clay liners / Bentonite etc. shall be undertaken for stabilization of the dump.	PPs Submission	Not Applicable at Present. Complied 23-04-2026 Attachment:NA
35	LAND RECLAMATION	The Project Proponent shall carry	PPs Submission	Not Applicable at Present.

		out slope stability study in case the dump height is more than 30 meters. The slope stability report shall be submitted to concerned regional office of MoEF&CC.		Complied 23-04-2026 Attachment:NA
36	LAND RECLAMATION	Catch drains, settling tanks and siltation ponds of appropriate size shall be constructed around the mine working, mineral yards and Top Soil/OB/Waste dumps to prevent run off of water and flow of sediments directly into the water bodies (Nallah/ River/ Pond etc.). The collected water should be utilized for watering the mine area, roads, green belt development, plantation etc. The drains/ sedimentation sumps etc. shall be desilted regularly, particularly after monsoon season, and maintained properly.	PPs Submission	Complied, catch drains, siltation Pond constructed at Mines area premises Complied 28-05-2026 Attachment: Click to View
37	LAND RECLAMATION	Check dams of appropriate size, gradient and length shall be constructed around mine pit and OB dumps to prevent storm run-off and sediment flow into adjoining water bodies. A safety margin of 50% shall be kept for designing of sump structures over and above peak rainfall (based on 50 years data) and maximum discharge in the mine and its	PPs Submission	Complied Complied 28-05-2026 Attachment: Click to View

		adjoining area which shall also help in providing adequate retention time period thereby allowing proper settling of sediments/silt material. The sedimentation pits/sumps shall be constructed at the corners of the garland drains.			
38	LAND RECLAMATION	The top soil, if any, shall temporarily be stored at earmarked site(s) within the mine lease only and should not be kept unutilized for long. The physical parameters of the top soil dumps like height, width and angle of slope shall be governed as per the approved Mining Plan and as per the guidelines framed by DGMS w.r.t. safety in mining operations shall be strictly adhered to maintain the stability of dumps. The topsoil shall be used for land reclamation and plantation purpose.	<table><tr><td>PPs Submission</td><td>Complied, Top soil is being stacked at earmarked area. Complied 28-05-2026 Attachment: Click to View</td></tr></table>	PPs Submission	Complied, Top soil is being stacked at earmarked area. Complied 28-05-2026 Attachment: Click to View

39

AIR QUALITY
MONITORING
AND
PRESERVATION

No Transportation of the minerals shall be allowed in case of roads passing through villages/ habitations. In such cases, PP shall construct a 'bypass' road for the purpose of transportation of the minerals leaving an adequate gap (say at least 200 meters) so that the adverse impact of sound and dust along with chances of accidents could be mitigated. All costs resulting from widening and strengthening of existing public road network shall be borne by the PP in consultation with nodal State Govt. Department. Transportation of minerals through road movement in case of existing village/ rural roads shall be allowed in consultation with nodal State Govt. Department only after required strengthening such that the carrying capacity of roads is increased to handle the traffic load. The pollution due to transportation load on the environment will be effectively controlled and water sprinkling will also be done regularly. Vehicular emissions shall be kept under control and regularly monitored. Project should obtain Pollution Under Control

PPs Submission

No road available for transportation of mineral from mines which passes through villages/habitation. However, with due support of local administration, village road with bitumen was laid up to 3.10 Km.
Complied
28-05-2026
Attachment:NA

		(PUC)certificate for all the vehicles from authorized pollution testing centers.		
40	AIR QUALITY MONITORING AND PRESERVATION	The Main haulage road within the mine lease should be provided with a permanent water sprinkling arrangement for dust suppression. Other roads within the mine lease should be wetted regularly with tanker-mounted water sprinkling system. The other areas of dust generation like crushing zone, material transfer points, material yards etc. should invariably be provided with dust suppression arrangements. The air pollution control equipment like bagfilters, vacuum suction hoods, dry fogging system etc. Shall be installed at Crushers, belt-conveyors and other areas prone to air pollution. The belt conveyor should be fully covered to avoid generation of dust while transportation. PP shall take necessary measures to avoid generation of fugitive dust emissions.	PPs Submission	Complied, Regular water tanker is deployed in Mines haul road for water sprinkling within mine lease area. Crusher construction is under way and necessary Pollution control equipments will be installed at crusher. Complied 28-05-2026 Attachment: Click to View
41	GREENBELT	The Project Proponent shall develop greenbelt in 7.5m wide safety zone all along the mine lease boundary as per the guidelines of CPCB in order to	PPs Submission	Being complied, Green belt development will take up as per approved mine plan Being Complied

		arrest pollution emanating from mining operations within the lease. The whole Green belt shall be developed within first 5 years starting from windward side of the active mining area. The development of greenbelt shall be governed as per the EC granted by the Ministry irrespective of the stipulation made in approved mine plan.	23-04-2026 Attachment:NA	
42	GREENBELT	The Project Proponent shall carryout plantation/ afforestation in backfilled and reclaimed area of mining lease, around water body, along the roadsides, in community areas etc. by planting the native species in consultation with the State Forest Department/ Agriculture Department/ Rural development department/ Tribal Welfare Department/ Gram Panchayat such that only those species be selected which are of use to the local people. The CPCB guidelines in this respect shall also be adhered. The density of the trees should be around 2500 saplings per Hectare. Adequate budgetary provision shall be made for protection and care of trees.	PPs Submission Noted for compliance. Agreed to Comply 23-04-2026 Attachment:NA	

43	GREENBELT	The Project Proponent shall make necessary alternative arrangements for livestock feed by developing grazing land with a view to compensate those areas which are coming within the mine lease. The development of such grazing land shall be done in consultation with the State Government. In this regard, Project Proponent should essentially implement the directions of the Hon'ble Supreme Court with regard to acquisition of grazing land. The sparse trees on such grazing ground, which provide mid-day shelter from the scorching sun, should be scrupulously guarded/ protected against felling and plantation of such trees should be promoted.	PPs Submission	Being complied, As on date, no grazing land is acquired. All existing guidelines will be followed during the acquisition of any grazing land. Being Complied 23-04-2026 Attachment:NA
44	GREENBELT	The Project Proponent shall undertake all precautionary measures for conservation and protection of endangered flora and fauna and Schedule-I species during mining operation. A Wildlife Conservation Plan shall be prepared for the same clearly delineating action to be taken for conservation of flora	PPs Submission	Complied, Not Applicable as no forest located within 10 KM of mine lease area. Complied 23-04-2026 Attachment:NA

		and fauna. The Plan shall be approved by Chief Wild Life Warden of the State Govt.		
45	GREENBELT	And implemented in consultation with the State Forest and Wildlife Department. A copy of Wildlife Conservation Plan and its implementation status (annual) shall be submitted to the Regional Office of the Ministry.	PPs Submission	Complied, Not Applicable Complied 23-04-2026 Attachment:NA
46	PUBLIC HEARING	The Project Proponent shall appoint an Occupational Health Specialist for Regular as well as Periodical medical examination of the workers engaged in the mining activities, as per the DGMS guidelines.
